Dear Property Owner Operator:

RE: WAPATO SHELL RH BOWLES CO INC, 631 WEST 1ST, WAPATO
Ecology UST #: 9254

The Department of Ecology (Ecology) is currently reviewing files related to underground storage tank (UST) sites. Ecology is not the delegated authority over Indian Lands. The U.S. Environmental Protection Agency (EPA) is the regulating authority for UST's located within the external boundaries of Indian Reservations, inclusive of all fee and trust land, and for UST's on trust land located off the Reservation. Therefore, your site has been transferred to the EPA's Indian Lands - Underground Storage Tank Division. This Division has the responsibility for the regulation of any underground storage tanks and oversight of any cleanup activities located at this site. **If this Division is already providing regulation and oversight at this site, please regard this letter simply as a formality of closure with Ecology.**

You are no longer required to have an underground storage tank permit with the Department of Licensing, nor a facility compliance tag from Ecology (the small "license plate" you received that allowed you to get fuel deliveries). Because your site is located on Indian Lands, you no longer need the facility compliance tag to receive fuel deliveries. Please return the facility compliance tag to the following address:

State of Washington Department of Ecology
Toxics Cleanup Program - Gail Jaskar
PO Box 47600
Olympia WA 98504-7600

If your site is a Leaking Underground Storage Tank site, the EPA Indian Lands - Underground Storage Tank Division will oversee any cleanup at this site. The site will be removed from Ecology's Leaking Underground Storage Tank List and will be placed on EPA's list.

Your site file will be transferred from Ecology's Regional Office Records Center to the EPA Indian Lands - Underground Storage Tank Division located in Seattle, Washington.

If you have questions about any of the information presented in this letter, please contact Jim Greeves of the EPA at (360) 753-8072 or Desiree Wells of Ecology at (360) 407-6247. If you have reason to believe that your site is **not** located within the boundaries of a Reservation or on trust land located off the Reservation, please call Mr. Greeves within one week of receipt of this letter to discuss that matter.
